ALISTOF THE DEAD

A TOTAL OF 4967 NOW RECORDED.

The list of the known dead at Galveston has now reached a total of 4967. Two hundred and thirteen panies have been added to the list by The Post's bureau of inquiry since last Thursday. Since the list was published Thursday many corrections have been made therein. Only a very few names have been taken out. however, and the pitiful roll of the dead has been increased by over two hundred in that time.

Two days after the storm The Post published a list of 300 persons who were known to have been victims of the great hurricane. At that time very few people thought the total number of deaths would exceed 2500, but day by day the roll has grown until nearly 5000 are recorded tonight.

Every effort has been made to secure a correct list. The Post has been besieged with inquiries from all parts of the country as to the fate of certain persons. At least eight hundred of these inquiries have not yet been answered, it being thus far impossible to obtain the information. This means that of eight hundred people who were in Galveston the night of the storm it is not known whether they are dead or alive. For this reason It is of the greatest importance for those who can answer any of the inquiries published in this paper to send the information to this office immediately.
